

JavaScript Arrays and Collections

METHODS FOR WORKING WITH ARRAYS

Jeff Batt

FOUNDER & HEAD TRAINER

@jeffbatt01 www.learningdojo.net

Topics

Not Covered in Course

Array basics

Basic arrays properties

Basic array methods (push, pop)

Accessing basic arrays

For loops

Covered in Course

Advanced methods (list of, find, fill)

New ways to iterate

New data collections (sets, maps)

Specific methods for sets and maps

Typed arrays

Reviewing the Sample Project

Quick Intro to Chart.js

Create an Array from a List of Arguments

Using the Spread Operator with Arrays

Using `Array.find` and `findIndex` to Find a Value

Using Array Fill

Methods for Iterating through Arrays

Conclusion

Summary

Course overview

Chart.js

Array.from

Spread operator

Array.find

Array fill

Iterating arrays
